What is your Mindset?

Mindset is "an established set of attitudes held by someone," says the Oxford American Dictionary. A fixed mindset is one in which you view your talents and abilities as... well, fixed. In other words, you are who you are, your intelligence and talents are fixed, and your fate is to go through life avoiding challenge and failure. A growth mindset, on the other hand, is one in which you see yourself as, a work in progress. Your fate is one of growth and opportunity. Which mindset do you possess?

We must use a growth mindset in order to help our children to achieve success and happiness. Regardless of their intelligence level, we must understand that all children will learn and grow. (Carol Dweck)
