Milestones

Milestones help families, caregivers and health providers recognize whether a child is developing in a typical way. Milestones represent a consensus of child development specialists and health care providers about typical child development. It can be fun and rewarding to watch your child reach milestones and to even keep a record of major milestones (said "Mama" first time).

If you are worried that a child is not reaching milestones, then be sure to discuss your concerns with families, teachers, and health professionals. Children can be screened at any age for signs of developmental delays. Children who have developmental delays can receive early intervention services to help optimize their development.

Remember, my door is always open to you, and our classrooms are open too. The Bright Futures faculty and staff are dedicated to providing children with the highest quality Pre-K learning experience. My email is tbolden@galesburg205.org, and my telephone number is 309-973-2000.

Sincerely,

Tammie J. Bolden

Age Appropriate Activities for Preschoolers

Preschool-age children should better be able to use crayons, pencils and paints, safe scissors, and paste or glue.

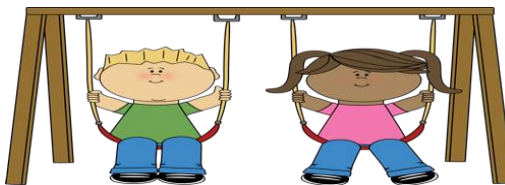

Tools for Triumph

Always say thank you when given something.

Physical Activity & Preschoolers

Preschoolers should be gaining confidence in their ability to run, jump, climb, ride tricycles, and play ball or other interactive games. They usually love playground equipment.
